I found this book "Let's Explore Australia (Most Famous Attractions in Australia: Australia Travel Guide while searching for books to share with my daughter about upcoming trips we will be having. This is part of a great series collection by Baby Professor which shows many different countries around the world. This is a fun book to share with my little one. The pictures are very detailed with high

resolution and bright beautiful colors. With each photograph, there are short and concise descriptions of what the child is seeing which can help spark conversations of what there is to see. I have visited not had the chance to visit Australia before and was looking forward to sharing the experience with my daughter when we visit it in the future. This has opened our eyes to what we will see and are so excited! Australia is such a beautiful country, I feel that even the pictures don't do it justice.
