Customer Reviews

This is the book we've been awaiting. Its therefore choked with sensible, simple to try and do concepts. My youngsters simply love surfing the book, page once page, attempting to determine that one to try and do next. Love the images of the kids demonstrating the activities.

Wow I loved this book so much. A smart and insightful look at a game whose history, if you don't know it, is truly fascinating. I've bought this book because of my interest in this game and I was very pleased about this book. There are some fascinating stories of creativity, manipulation and foolish hubris that make this a must read for anyone with even the slightest interest in gaming. All in all, very excellent book.

Jokes r not that funny. And some just don't understand but good history and some I didn't know about mario .

bought to read with my two small boys (9 and 7), had to skip many parts not suitable for their ages. Not funny jokes either, I personally did not like it. My husband stood up a couple of times interrupting me while I read saying "really, what are you reading about?!"

I remember this game when I was in my younger years where computer games didn't exist, literally a pure game without violence. And now I have this book that'll help the reader to smile or laugh. I love the memes inside this book. Each page will give you a humorous meme of Super Mario and his friends. There are some memes here that not so funny but most of it, you can put it in your social media timeline like FB. Anyway, I do really have respect for the author's sense of humor. What a brilliant mind. Grab this book and sealed your day with laughter and smile.

Super Mario is a game. Mario is my super hero. This book contains Mario jokes. I found this book very interesting and I really enjoy this book reading. The photos in this book is most amazing part of this book.
