Customer Reviews

I just finished reading Galactic Hot Dogs and wow was it good!! The story was engaging and well thought out. I really enjoyed the humor that is sprinkled on to every page and every panel. The artwork is really unique. Many times, when I read a comic or graphic novel I just read the story and barely pay attention to the artwork. Galactic Hot Dogs is different, though. I paused after reading each page for a few seconds just to take in and admire the amount of time and effort put into the art. This book was so great that I picked another up for my nephew. I can't wait for the next in hopefully a long series!

Galactic Hot Dogs is SO MUCH FUN!! Anyone who likes Star Wars or Guardians of the Galaxy is going to LOVE IT!! I've only had it two days and I've already read the whole thing twice! AWW, SMUDGE! WHEN IS BOOK TWO COMING??

My 9yo daughter adores this book. She loves the story and the illustrations -- her favorite character is Princess Dagger. She said the book reminds her of a funny Star Wars. From a parent's point of view, I think this would be a great book for reluctant readers. There is a lot of funny dialogue and fantastic illustrations to draw kids in, yet some good, challenging words in there, too. My daughter can't wait for book two!

THIS. BOOK. ROCKS. Fart jokes, interstellar hijinx, butt jokes, resourceful main character... It's a great book for reading out loud too. Highly recommended, tons of fun, buy it now.

Just finished this first book within the Galactic Hot Dog series and have to say that it was a ton of fun. The artwork was stunning and you really get drawn into the overall story itself. The plot of the book really moved along and due to the humor too you get to have a ton of fun along with the characters too. My kids were completely transfixed and by the end they were asking for the next story! If you child loves graphic novels, humor, great characters and artwork throughout this book is definitely one to read!!*I received this for review - all opinions are my own*

I couldn't get my daughter interested in reading...until GHD! She just loves the pictures, the wackiness of the characters and the high jinks they get into (and I've been enjoying it, too!). She keeps asking for book 2 - is there a book 2 yet??! I'm so pleased and hope the author continues this magical series.

Ive read this book and I'm gonna give a review. I liked this book a lot and would recommend to those who like a good laugh and love space themes. I would also recommend this to boys but girls might like it too. This book totally reminds me about myself and how I liked space. My dad got me this and once I set my eyes on this I couldn't stop reading. I hope you liked this review. Copyright. All rights reserved.(JK).
