Customer Reviews

The Flash Action Combo workbooks are really nice books. I bought a couple for my granddaughter and she loves to play the games on the computer that were downloaded from the CD that comes with the books. She is 5 years old and is not only learning the letters, numbers, phonics and ect. but is also learning how to use the computer while playing the games. The books themselves are really nice workbooks too. They have colorful pictures and are quite educational for the little tykes.

I bought this for my 4 year old. He loves both the CD and the workbook. It's very educational and fun. He will sit and complete about 4 pages before he's worn out. He will play the CD as long as someone will sit with him. Very good purchase. I can't complain about anything I've gotten by School Zone.

my 4 year old did this book without even asking me a question. I would not get it for a 5 or 6 year old as it would be a joke for them. Good book for a review for a 4 year old.
