# The Little Money Bible 2-CD

## Synopsis

Best-selling author Stuart Wilde has filled *The Little Money Bible* with pearls of wisdom. He says, "Money-making is not a serious business; it's a game. At first it may seem that it's a game that you play with forces outside yourself—the economies of the marketplace, so to speak. But as you proceed, you discover that it's actually a game you play with yourself!" • This is a highly enjoyable listening experience that will truly help you as you plot your path to financial freedom.

## Customer Reviews

There are few books that set out to achieve one thing and end up achieving another, far greater than their initial goal. This is one such example. Wilde's book is a seminal text that should be read by everyone, and I really do mean everyone, especially the young. I wish this had been on the reading list at high school. Although the title is a little obvious and one could be forgiven for thinking this is just going to be yet another 'I made it rich, so can you' or a 'get richer, quicker and with less effort' type affair, not so! Really not so. Wilde's strengths are numerous one of which being that he is clearly an intelligent human being whose thinking and rationale encompass a very diverse spectrum of disciplines. From metaphysics, to psychology and philosophy, through history and theology he offers the reader a very concise, well-written, articulate and above all HUMOROUS text that in no certain terms will change your life. Change the way you view yourself, money and the world around you. That is no mean feat! When reading the book I ended up highlighting just about every word on every page, and then had to go back and read it again to beginning to sift through it in greater detail. Two things really struck me about this book. Firstly, the clarity and simplicity of Wilde's writing.

Secondly the conviction and faith that emanates from the pages. Clearly a man of Belief, he has no problem rationalising money and wealth and spiritual awareness; and that alone is an amazing paradigm shift, worthy of an independent text. If there is a minus point to the book, then it has to be the rather cheesy final sentence tags he over-used. Once or twice a humorous footnote is memorable, but every time gets dull.
