# Managerial Accounting: Decision Making And Motivating Performance

## **Synopsis**

NOTE: The ISBN does not include Access card. Go beyond managerial accounting theory to the techniques used in management today. Managerial Accounting: Making Decisions and Motivating Performance enables managers and business owners to attain the core skills they need to become integral members of their company's decision-making teams. This new program from established authors Srikant M. Datar and Madhav Rajan emphasizes decision-making and the effects of decisions. While many texts teach the theories and frameworks of management education, Managerial Accounting goes further by covering the capabilities and techniques necessary for effective management practice, as well as fostering attitudes that typify integrity, honesty, and fairness.

## **Customer Reviews**

Purchased the eTextbook option as it says it's compatible with any device running a Kindle App. However, that is not true. It does not work with windows 8, 8.1 or 10. Also does not work with Kindle's cloud delivery. Rather, this eTextbook only works with Apple devices. Very disappointed this information was not accurately represented before I made the purchase. However, Kindle representatives were nice enough to refund my purchase.

Came as described and on time. Love being able to rent books and return at the end of the semester. At the end of the day, this is an accounting textbook, can't say I enjoyed what was between the covers but it served the purposes it was purchased for.

good

The book came fast, which was great for the start of the school year. I'm very happy :-D
